

Frequently Asked Questions Filing Frequency Changes

Why is my filing frequency being changed?

The Kansas Department of Revenue annually reviews the reporting history of each Kansas business tax customer to ensure their filing frequency is within statutory guidelines. This filing frequency determination applies to both sales tax (K.S.A. 79-3607) and withholding tax (K.S.A. 79-3298). A notice of proposed filing frequency changes is mailed to the affected customers prior to January 1st.

Filing frequency is based on the amount of tax liability incurred during the preceding calendar year. If there is no previous filing history the filing frequency is based on estimated filing. The department is authorized to modify the filing schedule for any business when the current schedule is inaccurate.

What are the filing frequency statutory guidelines for sales tax and withholding tax?
