### **EDUCATION POLICY DIRECTIVE 2**

Class enrollments must be received at least 14 days prior to the first day of the class. A determination will be made at that time as to whether or not there is sufficient enrollment to hold a class. Cancellation notices will be sent only to those individuals who have already registered at the time the course is cancelled.

### **EDUCATION POLICY DIRECTIVE 3**

In order to receive PVD maintenance points for any appraisal educational course, students shall attend all classroom hours. Each day an attendance sheet will be distributed. Only individuals who have signed the sheet will be counted as present.

No student will be allowed to sit for an exam without having attended the entire course of instruction. An exception will be made for individuals who have applied to take a special re-examination through IAAO/Appraisal institute.

These provisions are consistent with Kansas Administrative Regulation 117-6-2 (f) which states that in order to receive continuing education credit from the Kansas Real Estate Appraisal Board a student shall attend all classroom hours.

## CANCELLATION POLICY

## EDUCATION POLICY STATEMENT ON CHEATING

### **Examples of cheating include, but are not limited to:**

The use of a textbook, notes and/or cell phones during an examination without permission of the instructor.

Copying from another student when taking an examination.

Duplicating of examinations.

Altering another students' examination.

Talking with another student during the examination.

Lying about these or other academic matters.

Consequences: Students who are guilty of cheating can expect to be penalized. Any student who knowingly assists another student in dishonest behavior is equally responsible and is subject to the same penalty.

Action: The instructor/proctor shall have the authority and are expected to deal with suspected cheating. If an instructor/proctor suspects a student of cheating, the instructor/proctor will stop the examination and retrieve the examination (and scratch paper, if applicable). The student will be told they have violated policy and the examination is over. The student will be told of the instructor's/proctor's intent to file a report of suspected cheating with the PVD education committee.

Report of Suspected Cheating: The instructor/proctor will then complete a report of suspected cheating with an explanation of the specific offenses. The explanation will included the date, instructor's/proctor's name, student's name, case study or course name and examination location, along with a complete report of the suspected offense and all actions taken by the instructor/proctor. The report will be attached to the examination. A copy of the report will be sent to the student and the education committee.

Preliminary Decision: A preliminary decision will be made by the education committee and provided to the student. The student will have 15 days to respond to the preliminary decision. If no response is received by the education committee within 15 days, the decision will become final.

Response to Preliminary Decision: Upon response, the education committee shall review the response and provide the student with its final decision. The student will have the opportunity to appeal the final decision of the education committee to the director of property valuation pursuant to the Kansas Administrative Procedure Act, K.S.A. 77-501 et seq.

Appeals process: The appeal to the Director of Property Valuation shall be filed within 30 days after receipt of the findings of the education committee. The director's ruling is final.

Repeat incidents: If a second documented report of a suspected cheating incident has been upheld by the PVD education committee in a case study examination, the person will be ineligible for participation in the Registered Mass Appraiser designation program. Any person found to be cheating as defined in this policy has the right to appeal to the director of property valuation within 30 days. (see Appeals process)

The effective date of this policy is August 31, 2012.

Implementation: A copy of this policy will be included on the PVD web site. A copy of this policy also will be provided to each instructor before the course, as well as to proctors and candidates before the case study examinations.
